

ABOUT US

Back in 1978, the foundation of S.P. Enterprises was laid in order to provide unmatched quality packaging solutions and wrappers to all our customers. Over the years we have been recognized by our national and international clients as a leading flexible packaging company offering quality and affordable wrappers and packaging solutions covering Food, Agro, Medical, Pharmaceutical and Chemical Industries.

We are equipped with a wide variety of coating, printing, laminating and converting machinery and two modern plants in Ghaziabad, 20 kilometres from heart of Delhi. Our staff is well trained, qualified and have years of experience behind them to effectively handle variety of processes we carry out daily to manufacture hi-tech products. S.P. Enterprises is a ISO 22000 and ISO 11607 certified company.

- Bottle material: PE / PP / PET
- Structure: Heat seal / Pet / Foil / Paper / Wax / Pet / Paper / Board
- Applications: Antibiotic Powders / Syrups, Moisture and Oxygen-sensitive Pharma formulations etc.

SPE-SAFE VENT 5 LAYER

- Bottle Material: PE / PET
- Structure: Heat Seal / Pet / Foil / Wax / Board With Membrane Filter
- Item Name: SPE Safe Seal 5 Layer Vented Wads
- Applications: Pesticides, Agro Chemicals

Quality Control

We are a quality conscious company and all our products are rigorously checked online and post production to ensure delivery of products as per customer specifications only. Our trained personnel and well equipped labs also support our customers at product development stage to standardize specifications and ensure smooth supply chain for the customers thereafter. From time to time we also commission third party testing of our manufactured products to revalidate our own test results and as a quality assurance measure

Clean Room Production Facility

We realize the sensitive nature of products produced by our customers and especially maintain isolated clean room production facilities for manufacturing packaging materials for them.

In House Hi-Tech Testing Facility for Wads

Ply Bond Tester

Stability Test Chamber

Vacuum Leak Tester

Moisture Analyser

INDUCTION SEALING WADS
